Subject: Price increase | Waschtel Industrial Services and Service

Adjustment date: 01.01.2023

Dear customer,

Dear Customer,

due to limited availability of materials and the consequently delayed transport chains as well as the globally increasing raw material prices, there is unfortunately no other possibility at the moment, to adjust our prices to 01.01.2023.

We would also like to point out that due to the market situation even daily prices fluctuate enormously! From the current price situation these fluctuations can vary between 5% up to 15%.

We therefore advise you to have your orders checked by us at an early stage. We will continue to closely monitor the price situation on the market for you.

As soon as the market has calmed down again, we will offer you the then market price.

Further cost adjustments:

- Hourly rate adjustment to	95,00€ / hour
- Mileage allowance	0,95€ / hour
- On working days after the 8th hour	25%
- Workdays after the 10th hour	50%
- Saturdays	50%
- Sundays and holidays	100%
- Journeys to and from work	70,00 € / hour

Other expenses - e.g. hotel, flight or trip costs - will be charged according to time and effort.

We would like to thank you and ask for your understanding.

With kind regards

Sebastian Spiller
